"THE LITTLE PAPER"

VOLUME 1 NUMBER 6

POPE VISITS ROMULUS V.P. Bush Runs Around Track

by Mary Ann Banks

The visit of Pope John Paul II, a great and historic event, occurred in Michigan this weekend and it started in Romulus. Mayor Beverly McAnally was invited as a distinguished guest to greet the Pope to our area upon his arrival at Metro Airport Friday evening, September 18. The Mayor invited me to accompany her to this private, invitation-only reception for the Pope, and it was a great honor and joy to have been a part of this historic event.

The dignitaries present Friday night to officially greet the Pope were Archbishop Szoka, Cardinal Dearden, Governor James Blanchard, U.S. Senators Donald Riegle and Carl Levin, a representative from the Wayne County Executive's office, Mayor McAnally, Detroit Mayor Coleman Young, Daniel Murphy, Mayor Moore of Pontiac, the mayor of Hamtramck and the Chairman of the McComb County Board of Commissioners.

In awaiting the Pontiff's arrival, it was as though his spirituality and goodness had already permeated the atmosphere with a warm and pleasant feeling. Upon the Pope's arrival, the Archbishop, Mayor McAnally, Governor Blanchard and other dignitaries were on the tarmac to greet him as he descended from his plane, Shepherd I. Mayor McAnally had the honor of shaking the Pope's hand, and personally welcomed him to Romulus. The Pope then boarded the helicopter for Detroit.

In the message he delivered at Hart Plaza on Saturday, the Pope spoke on social justice, and the need to strive for an international solidarity, a continual awareness of our sense of justice, a unity of brotherhood, and worker dignity. He stated we are, "... fortunate to live in a free land and should cherish and protect that freedom."

Vice President George Bush was present at Metro Airport on Saturday

on behalf of the United States Government to bid farewell to Pope John Paul. The Vice President commented on the Pope's historic and inspirational visit to our land, and said that he will remain here in our hearts and has raised our eyes to the light of God. He also stated, "The Pope symbolizes love. He listens, he is a beautiful human being and has awakened that love in millions, whether or not they are Catholic."

In his departure message at Metro Airport, Pope John Paul stated, "God has blessed America from the beginning to now as America the Beautiful." In stressing our freedom and our quest for justice for all mankind, the Pope reminded us that we are a "... Nation under God, with liberty and justice for all." He concluded his message, saying, "May God Bless you all; God Bless America."

Approximately 3,000 people were present at Metro Airport on Saturday

night, including well over 100 persons from Romulus, to bid a fond farewell to the Pontiff.

The Pope is not only the leader of 50 million Catholics, but is also Head of State of the official government of the Vatican. Pope John Paul came as a friend of all of us and as an ambassador of peace and love. He captured the hearts of all who saw him.

I was very honored to have been able to share in the great event, an event which America has never experienced before. I am happy to have been an eyewitness of history, when a Pope walked among us. This moment will always stand out in my memory.

Post Script: During his brief stay in Romulus, Vice President Bush jogged around the track at the Junior High School Saturday afternoon.

Do You Really Like Your Kids?

by D. A. Atkins

What child do you know that is deserving? A neighbor, a friend, or maybe your own child deserves recognition and you are not even aware of it.

Too many times we look for the bad in children of all ages rather than the good that is in the better part of them. Does your child do well in school sports, band, drama or some other course?

Do you have a child that goes out of his or her way to help others in need? One that works exceptionally hard, or is exceptionally gifted with a particular possible trade?

You see, most children are gifted with something good. We as parents have a difficult time spotting it because we see that gift daily and have grown so accustomed to it that we seldom pay any attention to the exceptional gifts they do have.

I have a son for example that is very gifted with a true artist's hand. A hand that with the right breaks could net him a very large income sometime in his life. He is also very gifted in music. Will he go to school? No! Will he work? No! Yet, when someone needs something, and it really doesn't matter what it is, he is usually the first one to offer to help.

I have a beautiful daughter who also is very gifted with her hands and uses them daily. She is training to become a beautician. Can I get her to clean her room? No! Can I get her to wash clothes for her mother? Sometimes, if she feels like it! Yet, she is very sweet, warm and loveable. She also will be the first to help someone in need without ever asking anything in return.

I have another daughter whom I had spoiled to death since she was

eight years old. She is extremely talented in music. If she would stay with the instrument she is playing now in school, someday, she could

A MESSAGE FROM THE EDITOR

by D. A. Atkins

There are some people in the candidate race this election that would like to bring up past history and make campaign issues out of it. Some of these issues have already been satisfied by Attorney General opinions, some have been satisfied by other means, and some involve things like a three-cent piece of paper. Some involve computers, and others involve skeletons in candidates' closets, with the accusers claiming that *they* have no skeletons. I know of absolutely no one that does not have at least one skeleton that he would like to keep hiding.

Regardless of what the skeletons are, or what the Attorney General's opinions are, as long as these things have been satisfactorily concluded, they should be dropped so that the important, current issues that need to be talked about and resolved in this current election can be dealt with. Some of the main issues that you, the public, have presented to us are in the candidate questionnaires, and these are among the issues that need to be addressed.

The research I have done at this point leads me to believe that the water and sewer issue, for instance, has been settled and should be left alone. If a candidate is trying to raise an issue that is ten or more years old, that issue has probably been taken care of. I feel that, if the people who are bringing up

these issues were in office at the time of the problem, why didn't they take care of things *then*? It is probable that, if they couldn't take care of the problem while they were in office at the time, they won't be able to deal with it now, either.

I have tried to warn you in editorials in the past that, if you do not get out and vote in these elections, you will have some serious problems with people who possibly should not be in office. If that is the case, you will have no one to blame but yourself.

It is very easy to ride on the coattail of someone else; it is very easy to sit back and say, well, that person was on the Council before and they did a good job. That may not be the case at this point in time at all. If you know your candidates, and what they represent and stand for, then vote for that person. If you are going by what someone else has told you, or if you are voting because you dimly recognize a name, then please take the time to check things out. There are plenty of records at City Hall that are available for your inspection. It is sad when, in a primary election, only 1,801 of the 13,500 registered voters showed up at the polls.

This election is much more important than you realize, my friends. Please check out all of the candidates before you cast your vote, and *please do cast it!*

A MESSAGE FROM THE MAYOR

by Beverly McAnally

Congratulations to the candidates who were nominated in the Primary Election and a word of encouragement to those who finished with counts that placed them below the magic number "7".

Just remember that when I first ran in 1973, I finished fourteenth in the Primary. We didn't know that meant anything except that we had to work harder. We did and with a lot of help from our friends, finished first in the General election. So, get out there and try!

And a word to all of you who didn't bother to vote, please, take the time to reward your favorite candidates with your vote. I can say with few reservations that most of the incumbents have worked cooperatively to move our city ahead. Those who didn't, had an honest difference of vision for our community.

And a few words about the Papal visit. What a thrill it was for me to be recognized in behalf of all the people of Romulus in the welcoming ceremony. For too many years, Romulus was not included in the receptions of visiting dignitaries although we still bore the responsibilities of the host community's security obligations. I thought it an honor for all of us to be ranked next to our U.S. Senators and before any of the other Mayors in recognition of our city's host roll. It will certainly be a point of great honor to me personally to have had the opportunity to meet, shake the hand and speak to the head of state of the Vatican and the spiritual leader of so many millions.

And of what did we speak? Well, after the introduction by the Archbishop, who pointed out that the Pontiff was in the City of Romulus, the Pope took my hand and asked, "Not Detroit?" "No Sir," I answered, you are in the heart of the City of Romulus, and in behalf of our people, I welcome you." The Pope smiled, thanked me and proceeded on to be welcomed again by Mayor Coleman Young.

I want to express my thanks to all of our police and fire personnel who stood ready if needed during the Pope's visit and the arrival and departure of the Vice President, and to you who endured inconvenience due to road closings.

Like Your Kids?

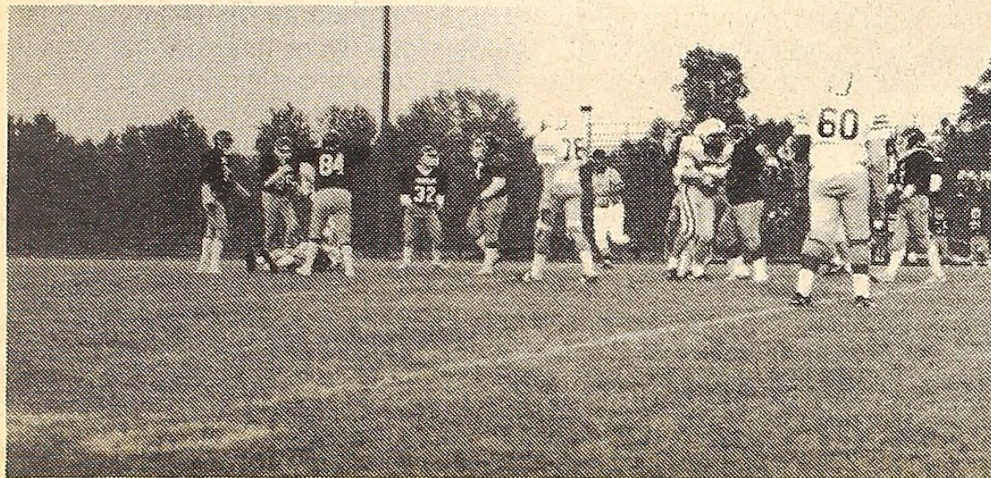

well play with the Detroit Symphony. Ask her to wash a dish? You must be sick! Ask her to pick up after herself? No dice! Boy crazy? You bet! But, if myself, her mother or someone else in the family were to get sick, she is right there and would not leave your side. She may do things a little sloppy, but at least she is there.

You see, even I have found good things in my own kids that I had forgotten all about until I started writing this article. Do I think my children are deserving of a special gift, prize or day? You betcha! Matter of fact, the more I write, the prouder I

get.

The gist of this whole article comes from Ron Jernigan, the owner of the downtown Romulus IGA. He is looking for a few special children he can reward in some way. He has several ideas and all of them are good.

If you have, or know of, a child that deserves special recognition, sit down and write a few words about what they have done and send it to, or take it to, the IGA store downtown. Think how nice you will feel when you do.

LOOKING FOR GOOD KIDS!

The Romulus IGA is looking for young people who are outstanding in their endeavors. We know they are out there, we see it every day. Do You?

Talk to your friends and neighbors about their children, take a second look at your own, see and recognize the good they have done and are doing. THEN let us know about them.

We are willing to honor two young people every week from this city. Age is not a factor, school is not a factor, but they must reside in Romulus.

Find them, then send to us, or drop off at our store, a brief resume. Include their name, address and phone number please.

HELP US FIND OUR "YOUTH OF THE WEEK"

BLOCK SAY'S TAKE MO-PEDS OFF STREETS

by D. A. Atkins

The suggestion that Mo-Ped vehicles should be taken off the road was made by Councilman Block last Monday. Block thinks the small, motorized bikes are a hazard not only to the riders, but also to the drivers of automobiles.

Block stated that, on his way to the Council meeting, two riders of Mo-Peds pulled out directly in front of him, and, had he not had control of his car, he probably would have hit at least one of them.

The same thing happened to me earlier in the day, only with a bicycle rider. He pulled out directly in front of me without ever looking or slowing down. I missed him by about four feet and I was just barely moving. Had I been going any faster, I probably would have killed him. The bad part of it all is, had Mr. Block or myself hit either rider, though we had complete control of our cars, we would be in jail right now.

Mo-Peds are not dangerous in just the streets, either. Many kids ride them on the sidewalks, to the hazard of pedestrians, or across lawns, tearing up grass as they go.

Block is right! Something has to be done about the Mo-Peds in particular. Yes, some drivers are licensed, but that doesn't mean that they won't be careless. Yes, some people, trying to be

good parents, go out and buy Mo-Peds for their children, but they could very well be signing their death certificates.

Mo-Peds are designed to run at about 30 mph, but there are ways to soup them up, and some kids do just that. Some of these Mo-Peds can run up to and over 50 mph with no trouble at all.

Do kids need schooling before being allowed to drive one on the road? Yes. Do they need to be taken off the road like the three-wheelers were? Absolutely yes!

If the people who own these vehicles would practice common, everyday road courtesy and realize that they are driving a vehicle that can kill or cause them to be killed, it might be a different story. At this point in time, however, it doesn't look as though this is going to happen, and that is a real shame. Mo-Peds can be fun for kids; they can be deadly with kids riding them who take no heed of the dangers of a moving vehicle.

Parents should wake up and realize what dangers might lie ahead for their kids, and the damage that could be done with these vehicles. As I said before, Mo-Peds can be fun; let's keep them fun by keeping them off the road, sidewalks and grass.

ANTIQUES BY ELSIE

by Elsie

Mistakes can be costly . . . so be sure to get a bona fide 'written appraisal' on all antiques and collectables before you sell or buy, especially when the items in question have possibilities or properties of being something more than meets the eye.

Honest and accurate appraisals are extremely important for many reasons. There are competent professional appraisers of one thing or another engaged, full or part-time, all around the country and in your own neighborhood, willing to assist you if you ask them *before* instead of after your transactions.

Seeking a 'qualified appraiser' who will submit written documentation detailing what you have, its value, and the basis upon which the evaluation was made, can be worth more than its weight in gold. Imagine having to tangle with the IRS, insurance claims, relatives, or a contested will without that 'written appraisal' in hand.

A bona fide appraisal also gives you personal information that can be saved along with the item for inheritance purposes, a confidence that the appraisal is a true accounting, and protection from 'faulty appraisals.'

Appraisers guilty of misrepresentation can be subject to fines, penalties, and a possible lawsuit from the owner of the appraised items, along with a loss of reputation both in the community and the business world.

Appraisers known as 'generalists' can appraise almost all antiques. Some items will be on a limited basis

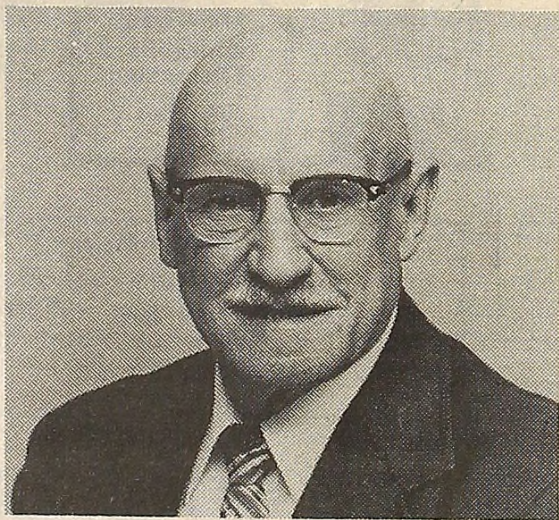

because of damage or repair and some items will just receive acknowledgment without a stated value because of condition. Other than that, you should receive a well-documented appraisal from a 'generalist appraiser' that will stand up in a court of law. A consultation about fee schedules is recommended before appraisal begins.

Appraisers known as 'specialists' usually have more expertise in a single category such as: furs, diamonds (gems), good art, guns, coins, Orientals, glassware, furniture, etc. It is prudent to seek out the 'specialist' if you are a one-category collector or single-item holder. Appraisal fees for 'specialists' can appear to be expensive or out-of-line in comparison to other charges for appraisals, but they aren't and are well worth the money in the long run. Fees can vary greatly because of the locale where the appraisal is done, so ask for a consultation first.

Most appraisers will tell you that 'collectables' is a category that is debatable on value and that no two people really agree on the price of any given item. As to value . . . each to his own. Depression glass, Fiesta, Roseville, Shirley Temple, Beatles, Presley, plus much, much more belong in this category. Any reputable dealer can tell you if what you have is a 'collectable.'

Tip for today: Don't be in a hurry to buy the 'Hot Item For The Week' because next week it could be replaced by a 'hotter' item, and you will have to join the group selling its 300 pieces of 'whatevers,' a.k.a. 'mistakes.'

IGA STORE HOLDS SUCCESSFUL DRAWING FOR THE REDDICKS

by D. A. Atkins

The winning numbers from the Reddick Fund drawing at the Romulus IGA are:

First prize: 326003 (\$100 food gift certificate from the IGA)

Second prize: 326155 (five free movie rentals plus free membership at Romulus Video)

Third prize: 326125 (three free treatments at Romulus Tanning Salon)

The Romulus News would like to thank Ron Jernick, the owner of the IGA, for all of his help in setting up the display for people to drop off their donations, and for his donation of the \$100 gift certificate.

Thanks are also in order for Ron Brugger, owner of Romulus Video and Romulus Tanning Salon, for his generous prize donations, and to Joe and Theresa Little of Joe's Sign Shop for donating the good-looking signs used.

At this writing, the total of the money collected for the Reddicks has not been tabulated, however, we do know it is not anywhere near enough to save their home. We still need more.

Someone has offered to loan her the balance she needs to pay off her taxes, but it would be based on a land contract. I made the remark in one of our earlier issues that someone could come in and buy that property for next to nothing, and the Reddicks would be out on the street; that could easily happen on a land contract. I called Mrs. Reddick and advised her to see the Legal Aid Society, which I understand she has done. Hopefully, they will offer her good, sound advice that she'll take.

I only wish we were able to do more than we have been able to, but we have done just about all we can do. The money that has been collected is in the hands of the Romulus City Clerk to do with whatever can be done to help the Reddicks.

We still did not get a response from 99.99 percent of the big corporations in the City — the ones with tax abatements and TIFA grants. I guess that's how they got their money to begin with and how they will probably keep it. No money from the airlines, the factories, the motels, the auto parking lots, and many more too numerous to mention in this space. I do hope, however, that you will let them know just how much you appreciate them not donating by sending them a letter of appreciation (not that it would bother them much).

Listed below are the names of those contributors of which we are aware, and we thank them from the bottoms of our hearts. Many more, both in the mailings and at the IGA,

wished to remain anonymous, and we wish to thank them, too, even though we can't print their names here.

It is too bad there are not more like you.

31 HAPPY KIDS FINISH GUN COURSE

NEW CLASS STARTS SEPTEMBER 30

by D. A. Atkins

There are thirty-one very happy young boys in Romulus — thirty-one young men who graduated from the Hunter Safety Course held by the Romulus Police Department, Romulus Police Officers Association, and the Wayne County Raccoon Hunters Association.

The class is a 16-hour course open both to young boys and adults. This was the third annual course and, as yet, no one has failed it. Police officers remarked that this particular group was very well behaved and attentive.

The classes were coordinated by Sgt. Daryl Poe and Officer Tom Ellis. These gentlemen were assisted by officers Richardson, Lazarski, Smagner, and Decaires. All these officers donated their time to help youths learn about the safety of firearms and survival.

Also assisting the officers were civilians Carl Springer and the son of Officer Ellis.

It seems that many states are adopting this type of program, where you must be trained in the use of firearms and survival and have a certificate of qualification before you can hunt in that state. Some suspect that this may also become the law in this

PICK UP REGISTRATION FORM AT ROMULUS POLICE DEPARTMENT

"THEY WERE A WELL BEHAVED, GREAT BUNCH OF KIDS!"
Officer Tom Ellis

state before very long.

The course consists of four basic parts, which deal with the following:

Part I — Hunter Responsibility (hunter ethics);

Part II — Firearms, Bows and Arrows and Shooting (history of firearms, rifles, shotguns, handguns, ammunition, black powder and muzzle loading, gun handling, marksmanship, and bow hunting and equipment);

Part III — Wildlife, Management and Game Care;

Part IV — Survival and First Aid (vision and hearing protection, basic survival rules, food/water and rescue, water safety, hypothermia, and first aid).

Lunch was served by the Wayne County Raccoon Hunters Association.

Much of the information taught in this course is both informative and useful; one thing I found particularly interesting was something that Officer Luzarski taught — a new way of telling directions now being taught by the military. Please see the following article to discover how to find your way out of a 'lost' situation by using a stick and two stones!

When Lost - Follow These Instructions

If you ever become lost, here is a simple formula to help you get on the right track and find your way home. This formula is what the military is now teaching to people in case they become lost without a compass to help direct them. (Actually, it is better than a compass because metal will not distract this illusion.)

First, *admit you are lost!* Admitting you are lost is the first and foremost factor in finding out where you are.

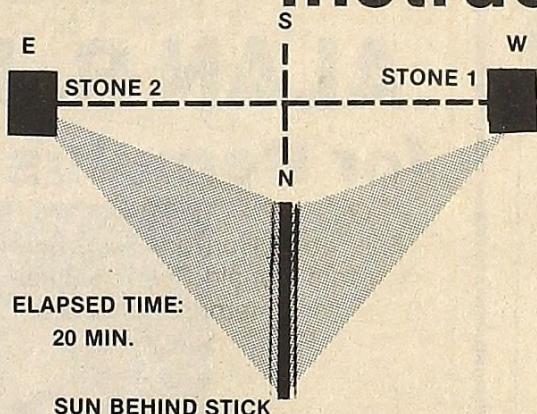

Second, place a short stick or branch into the ground at a fairly level spot where the sun will cast a distinct shadow.

Third, place a stone at the top of the shadow of the stick or branch.

Fourth, wait at least twenty minutes or longer until the shadow tip moves a few inches. Mark the new position in the same way that you did the first by placing a stone at the tip of the second shadow.

Fifth, draw a straight line through the stones placed at the shadow tips. You now have an east-west line.

To determine which end of the line is east and which is west, keep the following information in mind. Remember that the sun rises in the east and sets in the west, and that the shadow of the sun moves in the opposite direction. Therefore, the first stone you put down will always be at the west end, and the second stone will be at the east end.

ELAPSED TIME:
20 MIN.

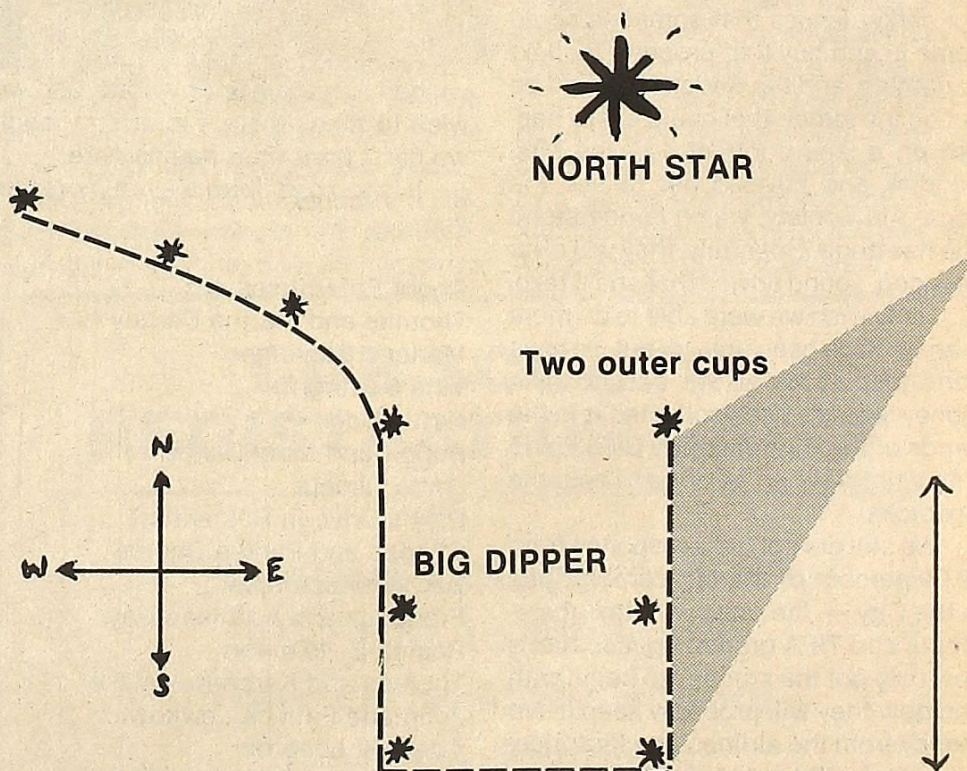

SUN BEHIND STICK

You can then determine the directions of north and south by drawing a straight line perpendicular to the first and remembering that, when you are facing east, north is to your left, and when you are facing west, north is to your right.

If it is too cloudy to cast a shadow, remember that you are lost. Wait until you are sure that the sun will cast a shadow for at least twenty minutes, regardless of how long you must wait.

If you are right handed, you will always have a tendency to walk to your right, even though you think you are walking in a straight line, and if you are left handed, you will walk to the left. Always, after walking for twenty or thirty minutes, follow the same procedure to make sure you are still moving in the right direction.

If you are lost at night, follow the diagram below.

This is how you find out where you are at night. It is sometimes best to lie flat on your back and look up at the heavens. If it is cloudy or very overcast, once again, ADMIT YOU ARE LOST and wait for the skies to clear up. You could stay lost if you don't!

NORTH STAR

Two outer cups

BIG DIPPER

Approximately 5 times the distance of the two outer cup stars.

NOTE: The NORTH STAR is NOT the biggest or the BRIGHTEST star in the sky. Rather, it is a star that STANDS BY ITSELF in the sky!

News From The Romulus Historical Society

The Romulus Historical Society would like to thank Frank Smythe, of Post, Smythe, Lutz & Ziel, CPA, for his generous service to the Society. Mr. Smythe, each year, files the Federal and State forms that the Society must submit to the government annually. He performs this service free of charge to the Romulus Historical Society. The Society sincerely appreciates his generosity. His firm is located at 35518 Park, Wayne.

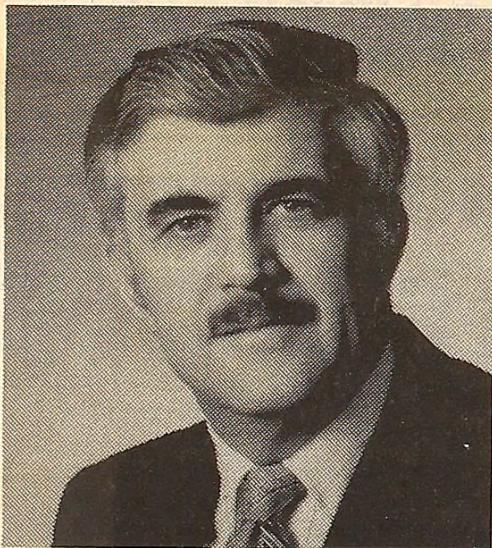

On Saturday, September 12, the Society participated in the Romulus Arts Council's Arts and Crafts Fair. The Society still has Romulus Sesquicentennial souvenirs and Michigan Sesquicentennial souvenirs to sell. Collector plates of Romulus are still available. They sell for \$15 each. If you are interested there is a display of these souvenirs at the Romulus City

Hall. If you would like to purchase any please call 697-9628 or 941-2678 for further information.

Be sure to drop by the Romulus Library and see the three display cases that have been set up. The Society has some new displays that might be of interest to the public. One case shows, via photos, the progress the Society is making on the schoolhouse/museum project. The second one displays an old-fashioned dress and button-style shoes. The third case contains dolls, toys and other antique items.

Our next monthly business meeting will be held Wednesday, October 21, 1987, at the Romulus Public Library at 7 p.m. A special program is planned for the evening. Refreshments will be served following the meeting. The public is invited to attend.

RE-ELECT BILL WADSWORTH ROMULUS CITY COUNCIL

Dear Romulus Resident:

In 1983 and 85 when you elected me to the City Council, I vowed to vote fair on all issues placed before me, always keeping in mind the needs of the citizens first. I believe I have.

During the 11 years I worked Romulus as a Police Officer, I feel I know and understand the problems, needs and wants of all the citizens, from the youngest to the seniors.

My wife Virginia and I have lived in Romulus for 20 years. Our sons attend school in Romulus and we think it is a fine community to raise a family.

During my first two terms we saw many positive things happen, the opening of a new Post Office, paving of new roads, new outdoor skating rinks for our children, Wick Road Development and the start and completion of Cable T.V. Many things are still undone and I ask for your support for a third term.

RE-ELECT BILL WADSWORTH
Romulus City Council

Romulus Resident for 20 years

Married 20 years to wife Virginia

Three children, John, James and Billy

Employed Police Officer for 20 years
Uniform Sgt. Wayne County Sheriff's
Department - assigned Metro Airport

Member of St. Aloysius 20 years

Member Public Works Commission

Education

Associate's Degree, Criminal Justice,
Henry Ford Community College

81 YEAR OLD CHRISTENING DRESS COMES OUT OF CEDAR CHEST FOR THE FOURTH GENERATION

In the year of 1906, Louise Poupard hand made a christening dress for her first-born child, George. The dress was also worn by Louise's three daughters, Veronica, Rose and Margaret.

The dress was then handed down to Rose Kovacs, who christened her son, Dennis, and her daughter, Linda.

Then it was handed down to Dennis, whose daughter, Paula, and son,

Michael, were christened in it.

Paula then used the dress for her daughter, Holly. On August 9, 1987, Paula's son, Robert Dennis McGeogh, was christened in the same dress at St. Aloysius Church in Romulus.

The christening dress is now 81 years old, and the family hopes that it will last another 81 years to keep up the tradition.

ROMULUS COMPANY EARNs ELITE FORD AWARD

Louis R. Ross (with plaque), Executive Vice President, Ford North American Automotive Operations, presents Horizons Unlimited, Inc., of Romulus, Michigan (a major supplier specializing in screw machine, cold forming, heat treating and related secondary operations), with Ford's Q1 Preferred Quality Award at a recent luncheon held in Dearborn, Michigan.

Representing Horizons Unlimited (from left) are Ronald Palmer, President of Horizon Enterprises, the parent corporation, and Robert Knittel, Jr., Vice President, Operations.

Ford credits Q1 suppliers with helping produce the highest quality cars and trucks built in America for the seventh year running. The prestigious Q1 Award, which has been earned by 32 percent of Ford's suppliers, goes to individual manufacturing plants that have implemented an effective quality assurance program and received an excellent quality rating. These plants use statistical methods to build in quality, rather than catch errors at the end of the manufacturing line.

This award was based on the wheel nuts Horizon makes for Ford vehicles.

OBITUARY

KRIS ANN KORMOS DIES AT AGE 17

Kris Ann Kormos, 17, of Belleville, died September 12, 1987. Kris was the beloved daughter of Sallyann (Gasidlo) and Albert Kormos, and dear sister of Sue M. and Albert (Albie) Kormos of Belleville, and Mrs. Bruce (Cheri A.) DeLong of Romulus. She was also the granddaughter of Mrs. Mary (and the late Joseph) Kormos of Huron Township and Mr. and Mrs. John (Madeline) Gasidlo of Romulus, and the aunt of Lissa and Jeffry DeLong, both of Romulus.

Kris was a senior at Huron High School in Huron Township, and President of the Class of 1988. She previously served as Junior Class Treasurer. She was a member of the student government, Students Against Drunk Driving (S.A.D.D.), the Wrestlerettes, and the Sunday Youth Classic, a B.P.A. youth bowling league. She was also a two-year letter varsity golf team mem-

ber, for which she received the Coach's Award, and an elected member of the Parish Council of St. Stephen's Catholic Church-New Boston.

Kris was pursuing both a college preparatory and health vocation curriculum. She would have graduated with a two-year certificate in Health Vocation. Kris was also employed at Block's Produce in Romulus. Previously, she was employed in nursing homes and was certified as a Nurses' Aid. She planned to pursue a degree in Nursing.

Services were held on Wednesday, September 16, 1987, at the St. Stephen's Catholic Church-New Boston. Father Alexander Wytrwal officiating. Interment was at the Michigan Memorial Park-Flat Rock. Memorials may be made to the Kris A. Kormos Memorial Fund. Arrangements were made by Baum-Crane Funeral Home, 36885 Goddard Road, Romulus, Michigan.

HERE'S YOUR

NEWS "N" VIEWS

This letter is in response to your article "Here's How To Have A Better Romulus", September 9, 1987 issue, page 3.

Your idea of going to the citizens of Romulus for their ideas, opinions and input regarding a "Better Romulus" is a good one. Reminding our citizens of what it was like in the downtown area in the 40's and 50's was a dream trip back into the childhoods of a good number of us that grew up here, **but** suggesting that this community lacks major shopping centers because our former governmental leaders chose to "keep it a simple community" is about as backward as expecting the present governmental leaders to snap their fingers allowing you to buy a Chunick's mink coat in downtown Romulus.

No one would disagree that it would be wonderful for citizens to run downtown and be able to shop in "major" stores and shops. Especially for those of us that live in the residential areas within walking distance, but to lead the same citizens to believe that by filling out your questionnaire and submitting same to the "proper people" that it will bring that dream to reality is misleading them and, in turn, makes the governmental leaders of this community appear to be unconcerned, uninformed and incompetent—not to say a few of them may well be.

The reason the "corn fields" that are now Southland and the "farmland" that is now Westland is that after a very expensive and suffocated market study, Dayton-Hudson Corporation found that the greatest return on their development and investment dollar would come from those particular areas. Such market studies are based on area population, projected population growth and economic base for generations into the future. Please understand we are not talking 26,000 possible shoppers: the population of Romulus within its 36 square mile borders, but 10,000 x 26,000 plus. Today, even smaller scale Strip Centers based their locations on these same suffocated marketing formulas. The A & P complex at Belleville Road and I-94 is a good example.

Time and again it has been brought to the attention of this community that whether we like it or not we are unique in that we have a ma-

jor Metropolitan Airport that sits on 9 square miles of prime property almost in the middle of the 36 square miles that make up this fine town. This Airport divides the city into four different sections and to get to any point in either of these sections requires a 30 to 40 minute drive on secondary roads. Even if you could get a major commercial developer to consider a shopping mall, where in this city would you suggest it be put? I can drive to four major malls in twenty minutes why would I drive 40?

Other small downtown areas around us suffer the same problems we do; Belleville, New Boston, Inkster, Wayne—they even built a "mall" with tax dollars that is practically a ghost town today and why? Because the economic support is **not there**.

Now, what can we do? Well, we look to other small communities like Plymouth and Northville and see what they have done. They offer homey, unique, craft-oriented shops and boutiques, gourmet eateries and community events are scheduled and publicized to draw the necessary buying crowds. For Romulus to do something along this line would take a long-term dedicated effort of all it's business people, it's governmental agencies, it's elected officials and it's citizens along with suffocated public relations program to draw the potential consumers. Adequate roads and means of transportation would have to be developed for easy access to the Downtown area—can you imagine trying to tell a guest at the Hilton Inn how to get to Downtown Romulus? And how should we support such a project? It takes bucks, it takes time, it takes dedication to a dream and sad as it is to write, the idealistic dreams and the idealistic dreamers who dream them are few. Sincerely,
Mary J. Hatten

Editor's comment:

If there weren't so many "suffocated" people already in this town and dreamers who never so much as went to sleep, we might well have something to be proud of.

You see, the real answer to all this is to create more housing and fewer Motels. More shops to sell retail items instead of more factories, better roads that are safe to

CANADIAN FARMER WANTS TO FIND STEVE & B.J.

The Mayor received a letter from Canada the other day and called us to see if we were interested in printing it. Normally, I would have probably said, "If we have the space" (An old newspaper way of getting out of doing it).

I found this particular letter very interesting, and best of all, it concerned two people from Romulus that the Mayor would like to find!

RR No. 3, Kerwood Ont. Canada

Arts and Craft Classes Available

Are you looking for something to keep you busy this fall? Do you want to take off some extra weight or improve your muscle tone? Maybe you have a desire to work with stained glass and make that beautiful lamp you have always wanted. If so, check out the brochure you received in the mail. Exercise classes are offered Monday through Thursday at different schools. Also offered are classes on:

Jazzercise, aerobics, stained glass, golf, social dancing, cake decorating, stenciling, weaved patio chairs, pinecone wreaths, sewing, investing, cooking (microwave), C.P.R., baking for Christmas, basket weaving, crocheting snowflakes, apple wreaths, dried flower wreaths, and a stop-smoking clinic.

These are short, informative craft and skill classes designed for busy people. The classes begin during the week of September 28. Beat the blahs! Do something different! Call 941-0610 for more information.

travel on instead of the county cross country pot hole courses we now have. Less of the type of leaders we had in the past who were more interested in giving away the airport property because they were afraid to take on the challenge themselves, create more parking downtown instead of taking it away like they did when they put the "beautiful street lights and flower pots" in that no one takes care of anyway. That in itself was probably one of the all time "killer" mistakes this city ever made. No parking, no business.

I do not claim to have all the answers, not even a good portion of them, but some one does and I think we should listen to those people. I surely wish they would speak up!

HERE'S TO YOUR HEALTH

A.I.D.S. COULD BE KISSING KILLER

by J. H. Barden, D.O.

Auto Immune Deficiency Syndrome is a Viral caused infection. This infection destroys the body's ability to fight other infections. The patient becomes very vulnerable to other infections and certain cancers. A.I.D.S. is usually fatal. There is a mild form called A.R.C. and is usually mild and symptom free. Sometimes but not always, A.R.C. progresses to become A.I.D.S.. Much is yet to be learned whether this is indeed a progression or a mild and severe disease.

A.I.D.S. usually spreads through sexual contact in the transference of blood products. Only rarely has it been possible to detect the spread of A.I.D.S. without being able to document sexual contact or transference of blood products. The A.I.D.S. virus can be killed outside of a victim with hot water, soap, detergents and antiseptic agents.

For every known A.I.D.S. victim, there are somewhere between 100 and 1,000 asymptomatic people who are H.I.V. positive. The virus which causes the disease is known as H.I.V., Human immunodeficiency virus. These symptom free patients can spread the disease. A.I.D.S. is believed to have developed among African Green Monkeys in Central Africa. In America it was discovered there is a very high incidence of A.I.D.S. amongst Hasian homosexual males. A.I.D.S. attacks the blood cells known as the T helper cells (T for Lymphocytes).

Everyone is susceptible to A.I.D.S.. The deciding factor is whether you come in contact with the Virus. Certain groups have a much greater incidence of the disease. The following groups have a high incidence of the disease: Homosexuals, I.V. drug abusers, prostitutes and Hasians. Some researchers currently feel the disease is as frequent in I.V. drug abusers as in homosexuals. Among drug abusers, the disease spreads by the use of contaminated instruments.

In 1985, a simple inexpensive blood test was developed to test for A.I.D.S. It is called ELISA. ELISA stands for enzyme linked immuno suppressive assay. If a patient develops a positive test, another test is usually done. Two positives strongly indicate A.I.D.S.. Then a more specific test is done called the Western Blot Test. A positive Western Blot indicates infection if present.

A patient may transmit the disease to others by sharing needles, sexual intercourse, intimate kissing and oral sex. It is thought hugging, kissing, social or dry kissing and mutual masturbation are safe. A.I.D.S. virus has not been found in tears. However, it has been found in saliva. Therefore, French kissing is a possible source of spread. Any combination of factors that spreads blood from patient A to patient B can account for the spread of the virus. Much is still to be learned about the transmission of this disease. Those people who develop A.I.D.S. die. It is a life threatening, life shortening disease. Thinking people are aware of the possibility of death from A.I.D.S. They are aware that casual sex can result in death. Many patients are seeing physicians and being tested for A.I.D.S. before starting their relationships.

The most important protection against A.I.D.S. is knowledge. The disease is usually transmitted by sexual contact - use a condom. They are not 100 percent protection, but they certainly improve the odds against the spread of A.I.D.S. Oral genital sex is very hazardous. Sharing sexual toys is dangerous. Hugging, holding social or dry sex and mutual masturbation is thought to be safe. Know your sex partner. If it is a worthwhile relationship, nothing will be lost by having your tests done. Casual sex significantly increases the risk of A.I.D.S. Blood can contaminate both tooth brushes and razors. These shouldn't be shared. Needles should never be shared or re-used.

You must protect yourself. Think what A.I.D.S. can do to your life before you become involved in casual sex. Is a moment of pleasure worth losing your life? A.I.D.S. is a good argument for testing prior to the establishment of a relationship.

ROMP Sets Class Dates

Male impotence is very often a difficult and sensitive subject to approach. It is important that information and assistance be made available on this subject.

Attached is a community calendar regarding a new support group at Heritage Hospital.

ROMP (Recovery of Male Potency) groups are self-help educational groups to help men and their partners deal with the problems of physical impotence. Heritage Hospital's ROMP group meets each month with various health professionals addressing the group.

Heritage Hospital in Taylor invites men and their partners who suspect that impotency has caused a loss of sexual function to attend the ROMP meetings held the second Tuesday of each month. In attendance are health professionals and a clinical nurse coordinator who will help men and their partners find solutions to impotency. For more information, call Heritage Hospital, 295-5237. If you reach a recorder, leave a message and the nurse coordinator, Joyce Berry, R.N., will return your call. In the event you cannot be reached, the nature of the call will be kept strictly confidential. You must pre-register prior to attending the ROMP meetings. Complete confidentiality is professionally assured.

Peoples Community Hospital Authority

Road races, Ronald McDonald and a 'nasty' running-shoe contest mark the Second Annual Fall Fitness Festival, Sunday, October 11, at Ypsilanti's Beyer Memorial Hospital.

Featured at the festival will be 5- and 10-kilometer road races sponsored by Beyer Memorial Hospital, *The Ypsilanti Press* and the Washtenaw County Parks and Recreation Department. The races are slated to begin at 8:30 a.m., with registration running from 7:15 to 8:15 a.m. on race day. Advanced registration is due by October 2 and can be made by mail to Fall Fitness Festival/Parks, P.O. Box 8645, Ann Arbor, Michigan 48107. Race registration forms can be obtained at Beyer Memorial Hospital, *The Ypsilanti Press* and a variety of local businesses. Fees for the race are \$8 in advance, or \$10 on race day.

Participants will receive a packet including a t-shirt, race number and a free ticket to a pancake breakfast after the race. Runners will also be eligible

for the 'nasty running-shoe contest.' The owners of the three nastiest pairs of running shoes worn in the race, as judged by a distinguished panel of experts, will win brand-new pairs of running shoes donated by Running Fit of Ann Arbor.

For the actual race, eight age categories have been arranged: 16 and under, 17 to 24, 25 to 30, 31 to 35, 36 to 40, 41 to 49, 50 to 59, and 60 and older. Awards will be presented to the top three male and female finishers in each category. In addition, the best-overall male and female runners in the 10-kilometer race will receive a Fuji 35-millimeter camera.

Five-person running teams and parent/child teams can also enter, with registration for team events being held on race day. Registration fees for team events are \$2 extra for parent/child teams, and \$5 extra for each five-person team.

While the runs are the main attractions at the festival, there will also be other events for the entire family. None other than Ronald McDonald himself will be on hand at noon for a children's Big-Wheel race. The event is free of charge, but children must bring their own Big-Wheels. All children in the race will receive a free t-shirt courtesy of McDonalds.

Rounding out the day will be a one-mile fitness walk sponsored by Beyer Memorial's Senior Advantage program. Entry fee for the fitness walk is \$6 and participants will receive a t-shirt.

Throughout the day health professionals will be on hand to offer free health tests such as blood pressure tests, body fat analysis, lung tests and cholesterol checks.

Also sponsoring the day's events are WAAM radio, Wiard's Orchards, Eastern Michigan University and the Beyer Memorial Hospital medical staff and volunteer Auxiliary.

All events will be held on the grounds of Beyer Memorial Hospital, 135 South Prospect, Ypsilanti. For more information, call the Beyer Memorial Hospital Radiology Department at 484-2422.

She Thinks Romulus P.D. Is The Greatest

I recently had our first dealings with our Romulus Police Officers, and would like to share with you something so many of my friends say their police departments wouldn't have done. I would like to be known as an appreciative mother, rather than signing my real name and hurting those concerned.

We have a 9½ year old son who has had a great interest in fire. We talked and punished him several times to discourage his interest. But one day when my husband came home and went to the basement, he called for all of us (2 other kids as well as us) to hurry down, that there was a fire somewhere in the basement. After putting it out, we called the police department not knowing what else to do with our son. Officer Leonard was at our home in no time. Before he came into the house to talk to our son, we talked to him asking him to do whatever it took to get him to stop playing with fire. Officer Leonard spent a great deal of time with the boy showing love and compassion, but at the same time letting him know how upset he was with him. Officer Leonard said to bring him to the police station next time there was a problem.

Well, not even a week later, we had some fire problems - so - off to the police department we went. This time our son spoke with juvenile officer Smagner. Again, these policemen were very patient with him, trying to get through to him how dangerous fire playing is, and can be.

What I'm trying to get at is, how wonderful our police department has been. My husband and I can't say enough about how good they've been with us. It showed our children just how our policemen really are our good friends and not the so called "pigs" that they are so often referred to.

Several of our friends can't believe how much interest the officers took with something others may have considered petty - but to our family, it just might have meant life or death if our son had pursued his interest in fire.

We're so pleased to say that our son hasn't shown any interest in fire as he once did.

Thank you Romulus Police Officers for showing our family just how much you really care.

Signed: An appreciative Mother

P.S. I'm not good at writing, but would love to make this instance

APATHY TAKES TOLL IN PRIMARY ELECTION

by D. A. Atkins

The primary election was held in Romulus on Monday, September 15, and there was a lot of apathy — only 1,801 of the more than 13,500 registered voters turned out. That in itself should tell you something. Is it that you don't care who runs your city? What does it take to vote — maybe twenty minutes of your time? The way things are going, maybe you had better take a better look at your city and get out and vote.

The returns were very surprising to many people. Mary Ann Banks came in first, with a very small lead over ex-Councilman Jimmie Raspberry. Barry

known if possible. It doesn't seem our police officers get the credit they so often deserve.

Feel free to rearrange our letter as needed but, please print our appreciation note to our men in uniform.

Editor's note:

We certainly agree with you. Here is your letter just as you wrote it. Congratulations from us, and I am sure the Romulus Police Department will welcome those friendly and sincere words you wrote.

Baumann and Noah P. Bergeron tied for third place, while Randy Gear showed a very strong campaign, coming in at number five. Sixth, seventh, and eighth places were taken, respectively, by William Wadsworth, Alan Lambert, and Ellis Pennington. The biggest surprises were Michael Woods at number nine, Fred Junior Block at number ten and Eva Webb at number twelve.

The official vote total was 1801, and they were split as follows:

Mary Ann Banks	1068
Jimmie C. Raspberry	997
Barry Baumann	794
Noah P. Bergeron, Jr.	794
Randolph Gear	762
William J. Wadsworth	753
Alan R. Lambert	730
Ellis T. Pennington	724
Michael D. Woods	667
Fred Junior Block	608
Judith Ellis	549
Eva W. Webb	345
Kristine M. Detroyer	309
Ronald A. Dubsky	236
Jack E. Schick	188

1950 - 59 Class Re-Union Slated

by D. A. Atkins

I well remember in the late 40's and very early 50's, a group of people I went to school with, and it is sad to say, I have not seen most of them since 1953. Jim Barton, Don McMann, Stew McLeod, Fred Cottenham, Bob Johnson, and many more. I haven't been to a single class re-union in all these years. Many times I wondered what happened to all these people.

I suppose I was always too involved in my own little world to really look them up. I haven't seen Jim Barton since he was in Seoul Korea and I was in Taegu. That was early 1954. We had been pretty close friends all through school, but now, 34 years later, I have found out there is to be a large class reunion for all the classes from Romulus from 1950 to 1959. It will be held October 10, 1987 at the UAW Hall on Van Born. There will be an open bar, fabulous dinner and souvenirs for all. You must have tickets in advance and they sell for \$20 single, \$40 couple. If there is someone you haven't seen for many years that you would like to meet up with again, and you graduated between 1950 and 1959 come on out.

For more information you can call: 941-0323, 326-1367, or 941-9285

FOR TEENS ONLY DEAR MARY

I am 17 and will graduate this year. My real problem is with my parents. They are really concerned about me and I know they love me very much, but, they like this one guy I have been dating for the last two years (off and on) and my parents get along with him really good.

The problem is, my parents want me to marry him when I graduate. He is 22 and has a very good job but, there is someone else that has come into my life lately and I am falling very much in love with him.

I don't want to hurt my parents because they do like this guy so well but they are really pushing me, and I really don't want to marry him. Please help.

K.D.S.

Dear K.,

Since you are 17 and will be graduating this year, I really think you are old enough and evidently bright enough to make up your own mind as to who you want to spend the rest of your life with.

I would suggest that you talk to your parents about your new found love. Tell them that you really don't want to marry the boy they like so well. It is nice that they like him, it is nice he is working, but you must remember, **you** are the one who has to live with whomever you marry, not your parents! And you might also inform them, respectfully of course, that money does not buy everything and especially love. Good Luck!

THE POLICE BEAT

A new born baby approximately three hours old was found on Isabelle Street September 17, around 11:55 a.m. The baby was found in the backyard of the person who informed the police. The baby was in a plastic bag and alive. The baby was transported to Annapolis Hospital where the police were informed that it was a six pound, six ounce, bouncing baby girl. The initial inquiry turned up no evidence as to whom the baby belonged to.

According to Detective Ken Krause, "Around 3:30 in the afternoon, we get a call from the lady that we have reporting it and she said, well, I did some checking around and know who the baby belongs to". Krause said that at this point in time the baby is doing well, and they will be talking to the prosecutor to see what they want to do about it.

"**Bull Dog Got Shot**" was the word on the streets around 8:30 p.m. September 15. There was a shooting in the 5800 block of Chamberlain in Romulus and it was reported that Wayne Edward Jones, better known to some as "**Bull Dog**" had been shot in the head. Jones is 26 years old and presently in the hospital in critical condition. There was a female suspect in custody but was released the next day. The police are still looking for the person or persons involved in the actual shooting.

At 9:15 a.m., on September 15, there was an attempted hold up at the Total Station at Wayne and Ecorse Road. A man approached the attendant and asked for a pack of Kool Cigarettes. He had his hand in his pocket and told the attendant, "You know what this is, gimme' the money." The attendant didn't believe the man intended to do anything and told the man to "Show me the gun"! The would-be thief left on foot headed north on Wayne Road.

I wonder if he kept the Kools?

KNOW WHAT AN APPLE REALLY IS?

Submitted by Betty Bashal

Did you ever think of the true meaning of the word Apple? The dictionary says, a usually round firm common edible fruit. Not so I say! There is nothing common about the Apple. What other fruit in the world can boast of over 20 different varieties of it's species? They are delicious eaten just as is from the tree, although some are better for cooking. Just think of the many different things we can make from Apples.

Strudel, cakes, cookies, crisp, fritters, pancakes, turnovers, muffins, rings, butter, sauce, donuts, coffee cakes, cornbread, jellies and jams,

pop tarts. We make cider, juice, wine, brandy, schnapps, and apple jack from them.

We candy them, carmel them, bake, fry and dry them. The greatest thing we do is Apple Pie them!

There is nothing more beautiful in the Spring, than to see and smell the Apple Blossom. It has even become our state flower. It is hard to believe that from this lovely fragrant flower comes such a famous fruit.

Just recently, I ate Apple yogart, chewed Apple gum, ate an Apple sucker, I even sprayed my bathroom with Apple scented spray. They even

Airport Noise Meetings To Be Held

Dear Citizen:

Wayne County Executive Edward H. McNamara and the Detroit Metropolitan Wayne County Airport Staff will hold a series of Public Information Meetings outlining the progress being made in Metro Airport's Part 150 Noise Compatibility Study.

The first of four meetings will be held on Tuesday, September 22, at 7 p.m. in the City Council Chambers at Romulus City Hall.

In addition to the Noise Study, Airport Officials will discuss the current status of Metro Airport's expansion and improvement program. At this meeting, citizens will be encouraged to share their concerns, comments and suggestions regarding aircraft noise. Those not wishing to speak will have the opportunity to write their questions or comments on cards for later response by Airport Staff. Citizens unable to attend this or future meetings may send comments to:

Community Relations Department
Detroit Metropolitan Airport
Smith Terminal-Mezzanine Level
Detroit, MI 48242

Romulus City Hall is located just south of the intersection of Wayne and Goddard roads at 11111 Wayne Road. From I-94, use the Wayne Road exit and travel south. City Hall will appear just past Goddard Road on the left.

Your interest in Detroit Metropolitan Wayne County Airport is most appreciated.

Ordinances Are Being Enforced!

As part of its community service, *The Romulus News* is printing certain City ordinances that residents may not

be aware of. Hopefully, this will help you in understanding your rights and responsibilities as a Romulus citizen.

Chapter V, Article 4 City of Romulus Ordinance #70-22

Inoperable Motor Vehicle Ordinance

An ordinance to regulate the outdoor storage of inoperable motor vehicles in the City of Romulus and to provide for the issuance of permits and to provide for penalties for the violation thereof.

The City of Romulus ordains:
Short title: Inoperable Motor Vehicles

Section 1. Storage of Inoperable Motor Vehicles or Parts Thereof.

It is hereby declared to be unlawful for any person, firm or corporation to store, place or permit to be stored or placed any inoperable motor vehicle or any parts of a motor vehicle on land located in the City of Romulus, unless said inoperable motor vehicle or part or parts of a motor vehicle shall be kept in a wholly enclosed garage or other wholly enclosed structure; provided, however, than any owner or occupant of said land may store or permit to be stored one such inoperable motor vehicle for a period not to exceed forty-eight (48) hours if such a motor vehicle is registered in his, her or its name; and provided further, that any such owner or occupant, in the event of hardship and upon payment of the fee hereinafter provided, may secure a permit from the Building Inspector of the City of Romulus to extend such period of forty-eight (48) hours for an additional period of not to exceed one (1) week for any one such inoperable motor vehicle. This ordinance shall not be construed to permit the parking or placing of inoperable motor vehicles on any street area in the City or in any front, back or side yards in the City of Romulus.

Section 2. Permits.

Upon application duly made by the registered owner of a motor vehicle and upon a showing of hardship which can be eliminated by an extension of time as herein permitted, the Building Inspector of the City of Romulus is hereby authorized to issue the permits referred to in Sec. 1 hereof. No such permits shall be granted for successive weeks for any one motor vehicle. A fee of Five Dollars (\$5.00) shall be collected for each such permit so issued, and shall be paid into the general fund.

Section 3. Definitions.

(a) Motor vehicles are hereby defined as any wheeled vehicles which

are or are intended to be operable as self propelled vehicles.

(b) Inoperable motor vehicles are defined as motor vehicles which by reason of dismantling, disrepair or other cause are incapable of being propelled under their own power, or are unsafe for operation on the streets and highways of this state because of inability to comply with the State Motor Vehicle Code.

(c) Recreational vehicles are defined as motor vehicles of the type commonly sold and used to engage in sporting or recreational activities and not for use upon the public highways or streets.

(d) Farm vehicle is defined as a vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other implements of husbandry or a vehicle designed for agricultural purposes and used exclusively in agricultural operations.

Section 4. Construction.

This ordinance shall not be construed as repealing any ordinance now in effect or hereafter made effective relating to the keeping of rubbish, litter, garbage, refuse, trash or junk, but shall be construed as supplementary to any such ordinance as well as to any statutes of the State of Mich. relating thereto.

Section 5. Nuisance.

The presence of an inoperable motor vehicle or parts of a motor vehicle in violation of the terms of this ordinance is hereby declared to be a public nuisance.

Section 6.

The provisions of this ordinance shall not be construed to require a permit for the maintenance and storage of recreational or farm vehicles.

Section 7. Penalties.

Violation of this ordinance shall be a misdemeanor punishable by a fine of not more than Five Hundred Dollars (\$500.00), or by imprisonment in the County Jail for a period not to exceed ninety (90) days or both such fine and imprisonment.

Section 8. Severability.

The provisions of this ordinance are hereby declared to be severable, and if any clause, sentence, paragraph, section or sub-section is declared to be void or ineffective for any reason, it shall not affect any other part or portion hereof.

APPLES APPLES APPLES

named a computer after it. The Apple is used in so many decorative ways. A bowl of shiny red apples has been used in many pictures.

There is Apple jewelry, Apple stickers, and many clothes have an Apple design on them. Did you know that the "Tomatoe" is called the "Love Apple"? And the Apple of the eye is the pupil of the eye. It is even used for teaching. The term "A" is for Apple, is in all beginner books.

Haven't we all heard that an Apple a day keeps the doctor away? Do you ever remember bobbing for Apples at a party? They even stuff them in pigs mouths. And you have to be careful not to upset the Apple cart, or to sit under the Apple tree with anyone else but me, because your the Apple of my eye. And you country folk certainly understand the term road Apple! And no one wants to be accused of being an Apple polisher. And one bad Apple can spoil the whole barrel. Have you ever been called the old Crab Apple?

The Apple also has quite a history. Way back in the beginning of time, a naughty lady took a bite of an Apple, called the forbidden fruit, and started a whole chain of events. Then, there's the Apple of discord, a Greek myth. It seems the Golden Apple inscribed, "For the fairest," thrown by the Goddess of Discord, among the Greek Gods, was awarded by Paris to Aphrodite. His award led to the destruction of Troy. Then there was William Tell who shot an arrow through an Apple sitting on his son's head just to prove a point.

So, you see, the Apple is not so common after all! Nor is the Huron Applefest! It's great, so come out and join us on October 2, 3, and 4th. We will be glad to see all you Romulus residents.

Like To Play Sports? Don't Abuse Your Body!

by Dan Elwart

The other day, a patient came in hurting all over. He had hurt himself playing soccer. Like it or not, his injury will be with him the rest of his life. His injury was one I've seen many times, caused by sports. The people playing these different types of sports range in all ages, sizes, and shapes, but one thing they all have in common - the desire to be "on top".

We read in the papers about the various teams, players and such through the years. The highlites, of course are on the best. The ones on top.

Now, I'm not one to favor "doom and gloom" type reporting, but I've often wondered how many people land "on the bottom" for everyone that makes it to the top. In their effort to excel, they literally are destroying parts of their body. Torn ligaments, torn cartilage, pulled muscles, broken bones, and ruptures to name a few. These are injuries that leave their mark the rest of their lives. Injuries that affect not only themselves, but the people around them.

I know these are the days of "doin' your own thing", but there is a price, I say again, there is a price to pay. I'd like to help you minimize some potential problems by asking you to consider these things:

1. Before going into a sport, consider the pro's and con's of it. Will the possible few minutes of days of "glory" override the likelihood of lifelong injuries?
2. Statistics show that the better an athlete, the more likely they are to get injured. Why? More often than not because of our over-confidence, being over-tired, or the need to stay on top. So, if your excelling in your sport,

learn to "pace" yourself. Increase your training a little at a time. That way you can tell if you're overdoing it and you'll have a chance to cut back or slow down before you injure yourself because of improper training.

3. Get advice from someone that knows! Reading a "How-to-do-it" book may give you enthusiasm, but that enthusiasm needs to be controlled by common sense from someone who has helped others to get into condition safely.

4. Trying to prove that you're still a young buck soon shows your true age! If you are in great shape, then go for it. If you aren't, let someone else be the hero. You build yourself up s-l-o-w-l-y until you get in shape.

5. If you think you've hurt yourself then carefully weigh the advantages and disadvantages of continued play. Remember you'll live with your decision one way or the other.

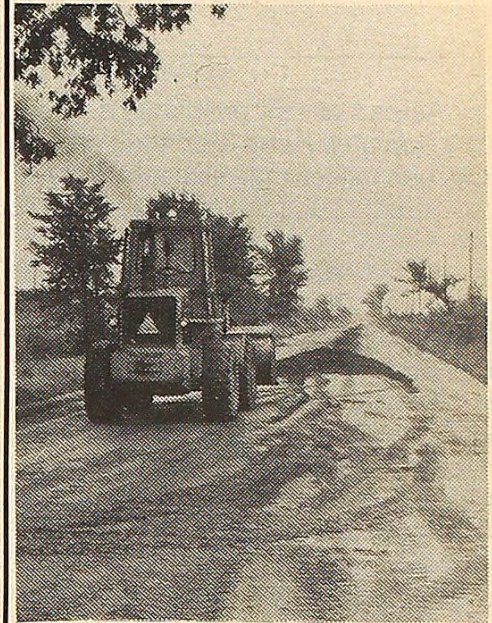

6. Sports are designed to be enjoyed. If you're not having any fun, find out why! Or, try something else!

7. Don't be afraid to give it up if you have to. Remember, when the teams gone home, it's just you and your aching back, or arm, or neck, or leg, or head that stays on to keep you company.

8. If you must play, then you'd better see a Chiropractor. They can check your spine and see if it is structurally sound. Then with the rigors of your sport, they'll help keep it in line.

Just a side note for runners: Chiropractic studies have shown that if your foot flares outward 25 percent from normal, you'll run an extra 33 yards (!) for every mile you run! In a race where inches can make a difference, it would be a good idea to have a Chiropractor check your feet to

see if you have that problem.

In conclusion, pick a sport that you enjoy. Minimize injuries by training conservatively. Get advice from people that know. Don't be afraid to stop if your hurting. See a Chiropractor for that extra edge.

Varsity Football

by Lara L. Gutierrez

The Varsity Eagles, led by Coach Norbert Glover, suffered two crushing defeats to two excellent football teams these past weeks.

Ann Arbor Pioneer defeated the Eagles 65-0, using a very powerful defense that shut down number-one rated Redford Catholic Central last Friday in a 7-2 upset.

The Eagles traveled this week to Adrian to play what most coaches feel is the best team in the South Central Conference this season. Trailing 35-0 at halftime, it looked to be another long evening for Coach Glover's team. Glover said, "We have some very fine young men on this team, and they talked to each other and realized that they are young and inexperienced, and that playing these teams is only going to make them better." So they pulled themselves together and came out the second half and played Adrian to a 6-6 tie, losing the game 41-6.

Coach Glover also said, "Maurice Windham and Ralph Farrell started to show improvement last evening, in fact, our whole offensive line is building confidence with each play." Arol Trinity and Ali Campbell started hitting the holes with some aggression, and Arol scored on a fine 10-yard end around for the Eagles' first score this season. Coach Glover added, "Our attitude is changing. You could hear it on the bus ride home. Usually after a loss like this it is either quiet or guys are picking on each other. These young men were talking about next week. We will be home finally and we have something to show our fans."

Coach Glover summed up the Eagles' performance by saying "Many of our young players are getting better, but we still have a few changes to make. We have talent and our youngsters are beginning to believe in themselves. Rickie Champagne and David Blandford both had excellent games at Adrian. All we need now is the right combination and I think we are going to surprise some people."

Maybe the home field and our home crowd will be the answer. This Friday, we have our home opener against Bedford at 7:30 p.m. Let's come out and support these youngsters, as our football program is improving with each week. All the Eagles need is a little support from their classmates and the community.

Eagle Golf

The Eagle Golf program is in its third year of existence under Coach Bill Knight and is improving season by season. Coach Knight says "This year is going to be a little rough because we are trying to replace two young men, Mike Lederle and Paul Neidermeyer, both of whom are playing on college teams this fall." The Eagle Golfers are led by a senior team of Keith Brothers, Alex Bossary, Mike Laymon, Jeff Day and Jeff (last name not submitted).

SPORTS IN ROMULUS

"We're improving each round," Coach Knight adds, "but, as you can see, we have all seniors and we really need our underclassmen to get out and play every week in order for our future to look brighter."

J.V. Lady Eagles

On Thursday our J.V. Basketball team suffered its first defeat to a very physical Adrian Maple team. Coach Price said, "Our girls have nothing to feel bad about. We played hard, aggressive defense against a very aggressive team. This could be one of the better teams we will face this season."

The Lady Eagles were led by center Susan Molenda and forward/guard Angela Hopewell on offense, with forward Jennifer Daniel helping greatly on defense and with rebounds. Coach Price summed up the game this way: "We still make some mistakes because we're young and inexperienced, but these girls work hard in practice, and by mid season I really feel that this will be a team that our fans will be proud of and enjoy watching play their games."

J.V. Football

On Thursday our J.V. Football team dominated a tough Adrian Maple team with a defensive performance not seen on Carl Morris field in a long time. Led by the play of Jimmy Suddeth, Scott Murawski and Larry Perkins, the young Eagles controlled the Maples offensive line. Coach Mike Abdo said "I was very impressed with our total defense and it shows that the team that plays the best defense will win. Offense tends to get the glory but defense wins the ball games."

The 6-0 score was gained by the Eagles when Tim Kosikowski, quarterback, handed the ball off to Raymond Gibson, who followed an excellent lead block by Brandon Redmond and scampered 49 yards for a touchdown.

Next week: The Bedford Mules at Bedford, game time 7 p.m.

Eagle Sport Shorts

by Lara L. Gutierrez

Lady Eagle's Varsity Basketball

On September 17, the Lady Eagle's Varsity Basketball team was defeated by Adrian, 48-15.

This was due, in part, to the fact that two of the team's strongest players, Malaika Williams and Carletta Jackson, were both out with injuries, but Coach Bayes assures us that "A lot of action will be seen in the games to come."

Junior Laurie Berlin scored seven points and 11 rebounds in Thursday night's game. Rochelle Hawk and Captain Reenie McNeil also contributed great efforts.

The next games scheduled for the Lady Eagle's include: Milan (home), September 22, 7:30 p.m.; Erie Mason (away), September 24, 7:30 p.m.; and Belleville (away), September 29, 8 p.m.

Cross Country

Cross Country is a sport that most often goes unrecognized in many high schools. Romulus is no exception. Cross Country isn't a 'glamour sport,' nor does it dominate sports page headlines. In fact, it isn't even a professional sport. All of these discourage many good athletes from participating.

Cross Country is racing which takes place on more or less 'natural' terrain. The run itself is 3.1 miles in most high schools, and up to five miles in college. Racing Cross Country involves running at a speed which is somewhere between a slow jog and an all-out sprint.

The sport is team oriented, and everyone from the fastest to the slowest runner is important to the team's performance.

The ability to run long distances is a developed one. Almost anyone can do it, and running is something you can do for the rest of your life without any special equipment or facilities.

Some of the members of this year's

Cross Country team include: Tim Gondek, Renee Hardt, Lisa McClure, Kurt Martin, Lisa Roy, Susan Rocha, and Cathy Swisher.

The next meets scheduled are: Adrian (home*), September 22, 4 p.m., and Ann Arbor Huron (away), September 29, 4 p.m.

*Home meets are at Lower Huron Metro Park.

AND NOW LADIES AND GENTS - HERE'S COLEMANS KORNER

by Fred Coleman, Romulus Schools Activities Director

We are very happy and proud to be a member of the South Central Conference this season with our associates, Ypsilanti, Ann Arbor Huron, Ann Arbor Pioneer and Adrian. As was shown these past two weeks in our athletic competition, this league is one of the best in the State.

In order for us to be successful, I feel two things have to happen. First, we need parents encouraging their sons and daughters to get involved in our programs, either as a participant or as a fan. We have to show our athletes that we are proud of their efforts either in victory or in defeat. Last evening, there were approximately 5,000 fans at a football game in Adrian. It's no wonder their athletes play with that little extra enthusiasm.

Second, and most important, is that we need our athletes to believe in themselves. I hear people saying, "You guys can't beat Ypsi," or, "You girls can't beat Adrian," and it doesn't take long before they start believing this to be true. Having coached in Romulus these past 17 years, I really believe that we have some of the best athletes in this area, and there is no doubt that we have excellent talent in our school right now, especially in the freshman and sophomore classes. The only thing our athletes lack is confidence. I would like to challenge the people of Romulus to support their teams like the communities in our league support theirs, and I bet we will see great strides in our programs.

We are providing season tickets for students and parents at a tremendous savings because door prices sometimes seem high to some people. If you want to be a true fan for our teams at a reduced rate, contact me at 941-3414 during the day for more information.

I want to encourage people to be at our games because these young people are in a tough, uphill climb to reach the top, and, really, all they are lacking is a little encouragement from their peers and their community.

Thank you for your support.

JENNIFER LEE SAI

Jennifer was born September 10, 1987 at St. Josephs Hospital in Ypsilanti at 6:07 p.m. She weighed 7 lbs. 14 oz. and was 20¾ inches long.

Her proud parents are Stanley and Mary Ann Sai of Lisa Street in Romulus.

Maternal Grand Parents are Mr. and Mrs. William Krause of Belleville.

Paternal Grand Parents are Mr. and Mrs. Albert Sai of Indian Orchard, Massachusettes.

ELIZABETH ANN ABBOTT

This lady was born on September 3, at 10:48 a.m. at Sinai Hospital. She weighed 8 lbs. and 2 oz. She was 20½ inches long and has a very proud brother named Alexander.

Mom and Dad, Rick and Maryellen Abbott, were glad to see that Elizabeth was well and happy with her parents. The Abbotts live on Wade Street in Romulus.

Maternal Grand Parents are Mr. and Mrs. Graham of Weidman, Michigan.

Paternal Grand Parents are Wayne and Linda Abbott of Alma, Michigan and Vada Abbott of Mt. Pleasant, Michigan

DeWAYNE WOOD

A bouncing baby boy was born September 15, 1987 at Garden City Hospital at 7:45 p.m.

DeWayne was 6 lbs. 5 oz. at birth and was 20 inches long. This young man would like to welcome the following people into his life who were lucky enough to be his brothers and sisters. David Jr., Donald, Nina, DeMiss, Dail and Depaul.

He readily accepted his parents with open arms, Harold and Cathy Wood, of Wick Road in Romulus.

His Maternal Grand Parents are Clara Howard and Leonard Wood.

His Paternal Grand Parents are Mr. and Mrs. William Pritula of Gladwin, Michigan.
